Yes, we haven't quite entered the belly of Hell just yet, but seems like most of us are going from a jog to a good run.
In order to do that, all that's needed is apathy, denying reality, agreeing to obvious lies, and accommodating evil by not calling it out.

We're there. 🤪

She wasn't the actress...why would he have any reason to shoot?

What are the chances of Alec Baldwin - who starred in Hunt for Red October - shooting and killing a woman, on a film set that NEVER has live ammunition? EVER. But this one did! Real bullets in a movie set! And what are the chances that he pointed the gun at her and her alone, nobody else, and she grew up in Murmansk the nuclear submarine base, that is famous for training in espionage? And what are the chances that she just happens to be married to a guy who works for a law firm that defends the Clintons? And what are the chances that she used to be an investigative journalist and her father used to be a Naval commander at the nuclear submarine base of Murmansk? And she and she alone got killed! By the actor who starred in a movie about espionage between the Soviet Union and the US! IN FARKIN' CTOBER!
